Further Information

The deposit required is £750

The landlord has requested to include 44 weeks at full weekly rent and 8 weeks at half weekly rent. If occupation is required during the 8 week summer period, full rent is payable from the date of move in. The move-in date for non-summer occupation is 1st September 2023. The heating is set to keep an ambient temperature of around 20C. Above this temperature the heating will cease to be responsive at the thermostatic valves located at the base of each radiator. If the temperature drops below 20C the heating will start up and the radiators will be responsive. Hot water is set on a continuous supply. From time to time, if hot water demand is unusually high over a short period of time, the water temperature may drop. If this remains cool to warm over a period of 3 or more hours this should be reported to the landlords agent. The tenants agree to use the all-inclusive services sensibly and not to abuse this privilege. Should the tenancy exceed a normal usage then the landlord reserves the right to recover additional monies payable at the end of the term. Gas usage is not capped. Electricity usage has a capped allowance. A set electricity allowance is included in the price of your rent. If you exceed your allowance, you will be charged for each unit that you use. This price is based on the average unit rate paid by the landlord to the energy supplier. Lander Ventures Limited (the landlord) will pay for the cost of all electricity consumed within the property up to a maximum of 850 units of electricity (kWh) per tenant. For example, allowances will be capped as follows: 4 Bed Property up to a maximum of 3400kWh Based on Creation Date: 16/05/2024
